

# How to use the locker

1. You may get your locker from your advisory teacher.
2. Now, the numbers you've given are 0000
3. If you want to change the numbers, turn the handle and place it to 'OPEN' position.
4. Then, press the red button and at the same time turn the handle to the right a little more. Make the handle horizontal.
5. Input four numbers you want to have and replace the handle to the 'OPEN' position again. Don't forget those Four Numbers. This is your own locker number!
6. Turn the handle to the 'CLOSE' position, then change the numbers to some other numbers to make the door locked. If you don't change the number after close the door, it might cause your stuff is stolen!
7. If you want to open the door, input your own numbers that you chose and turn the handle to the 'OPEN' position.

***There is no other way you can open or unlock the door, if you forget your 'OWN NUMBER' so make sure not to forget your own four numbers.***
